Nicoly Dandara

Product Designer

nicolydndr@gmail.com | adandara.com | linkedin.com/in/nicolydandara | Brazil | Remote

Summary

Product Designer, T-shaped across UX, UI, and code, designing software in-house at consumer scale and pairing directly with engineering rather than handing work off. Prototypes in Figma and in code, using AI tooling daily from discovery to production. Distils ambiguous problems into clear, focused solutions.

Skills

Figma, prototyping, working within design systems, HTML/CSS, TypeScript, React and Next.js, accessibility, AI tooling (Claude Code), screens and flows, design critique and feedback, async written communication, usability testing and experiments, continuous discovery, Android, APIs and integrations.

Professional Experience

Sabbatical

Brazil | 03/2026 - Present

- A deliberate break after Stone, spent on thesis research and on the two projects listed under Projects.

Stone Co. — Product Designer

Remote, Brazil | 06/2022 - 03/2026 | Promoted from Junior to Mid-level, 04/2024

- Designed payment terminal software running across 22+ device models and 4.5M+ active payment terminals.
- Owned Stone's events ticketing app end to end as sole designer: 8th most downloaded of 33 terminal apps.
- Led partner-side service and product design for Stone's terminal App Store, replacing manual, in-person app distribution; in 6 months, 40% of ~212 partners fully moved to the self-serve flow.
- Took over as sole designer and shipped Pix by NFC (tap to pay) across 22+ terminal models, live on day one of the Central Bank mandate; competitors copied the flow and press used Stone's interface as the example.
- Redesigned in-terminal news campaigns as a self-serve flow where marketing publishes in markdown, replacing a four-team hand-off and cutting about a week of sign-off per campaign.

QuintoAndar — Junior Product Designer

Remote, Brazil | 12/2021 - 04/2022

- Redesigned the due-diligence report buyers found confusing, from 8 interviews run with a senior designer.

Education

Universidade Estadual de Minas Gerais — Bachelor's in Graphic Design

05/2021 - Present

- Thesis: Service Design Framework for Museum User Experience

Centro Federal de Educação Tecnológica de Minas Gerais — Technical Degree in Computing

05/2017 - 03/2021

Projects

adandara.com — Personal site and document pipeline

Design and front-end | 2026 | https://adandara.com

- Built an interruptible zoom layer with ARIA modals, and a Playwright pipeline for ATS-checked PDF résumés.

In Service of Museums — Thesis research site

Research, design and front-end | 2026 | https://servico-museu.vercel.app

- Built a recruitment site for the thesis, securing 8 interviews with museum professionals in two weeks.
